DETAILED ACTION

Reasons for allowance

Examiner acknowledges a submission of the amendment filled on 05/02/06. Claims 28-37 have been kept original, claims 38-64 are new (rewritten claims 1-27), amendments to the specification. It also included remarks/arguments. Amendments have overcome rejection.

The following is an examiner's statement of reasons for allowance.

Applicant's arguments, with respect to the "Method of using inductance for determining the position of an armature in an electromagnetic solenoid" Wright et al. US Patent 6657847 issued on December 02, 2003 have been fully considered and are persuasive. The rejection of the cancelled claims 1, 15 has been withdrawn. These claims are now new and renumbered as claims 15, 52.

The closest reference above listed from Wright et al. does not teach "inter alia" a memory means nor a response comparison programming.

As a result for claims 28, 36, 38 & 52 the allowability resides, at least in part, in the above-described limitations, in combination with the other elements of each of the claims, which has not been disclosed in or rendered obvious by the Prior Art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
